

PathTrue™

SolvTrue™

CannaTrue™

SUSTAINABILITY

- Reduce waste disposal volumes
- Positively impact waste generator status
- Convert solvent purchases into a sustainable operational practice through recycling & recovery
- Recover more than one solvent
- Improve carbon footprint
- Be your own solvent supply chain

AUTOMATION & CONVENIENCE

- Charge used solvent into unit, push the button, come back to collect/reuse recovered solvent
- Recover solvent from solid or liquid waste
 - Improve workflows in work centers
 - Integrate into the facility's operations
 - Built in onboard sensors

**"BECOME
YOUR OWN
SOLVENT SUPPLIER"™**

**SOLVENT RECYCLING
& RECOVERY**

ECONOMICS

- Improve & reduce purchase costs
- Reduce disposal costs
- Reduce transaction costs including: less PO's, less receipts, less payments to suppliers, less expense
- Solvent cost increase avoidance

SAFETY

- UL 2208 Certified
- Stainless Steel Tank Design
- Reduce solvent movement in a facility or lab
- Reduce solvent volume
- Reduce warehousing storage space for solvents
- Intrinsically safe design
