MiniSolv™ Solvent Recycler

Right-Sized Solvent Recovery for Smaller Operations

Small-capacity simple distillation system for IPA, Acetone, Ethanol, Methanol and Xylene

NOW SOLVENT RECOVERY CAN FIT YOUR OPERATION, WORKFLOW AND BUDGET

Why Was MiniSolv™ Created?

- Many solvent recycling systems are sized for larger operations.
- MiniSolv was developed for facilities with smaller solvent waste volumes.
- Smaller operations can now recover and reuse solvent without large equipment or investment.

MiniSolv™ Highlights

- Smaller Footprint
- Smaller Solvent Volumes
- Lower Investment
- Air-Cooled Operation

Specifications

- 2 Gallon Capacity
- 120V Operation
- Approx. 60 lb.
- Bench-Top Design
- Air-Cooled Operation
